Brief description of the project **We seek retroactive approval for identifying signage at the front entrance to the Waterford Mill (c. 1817) in Waterford, Virginia. An empty bracket has long hung over the front door so a 27' X 30' sign was designed to fit it. A picture of this simple sign is attached. A great deal of time and thought went into the design as this was the most significant building in the village in its hey-day. The sign has the approval of the National Trust for Historic Preservation, easement holder of the Mill.**

The information in this application is accurate to the best of my knowledge. I understand that the County may deny, approve, or conditionally approve that for which I am applying.

**Subject:** Waterford Mill (Waterford, VA)

Margaret:

Pursuant to paragraph 5 contained in the Deed of Easement (dated September 3, 1975) between the Waterford Foundation and the National Trust, the National Trust has reviewed your question about the Mill's façade signage. I am writing to confirm that the existing sign is in compliance with the terms of the easement. Please do not hesitate to contact me with any questions.

Shanti
